Overall Performance 53% - Advanced

The score above and chart below indicate your organisation's overall performance in the 2023 APCO Annual Report. With your chosen reporting period of January, 2022 - December, 2022 you have achieved a Advanced overall performance level.

Criteria Performance Levels

The chart below indicates your organisation's performance against each of the Packaging Sustainability Framework criteria in the 2023 APCO Annual Report. Each band represents a performance level with the green indicating your level of performance for each.

Packaging Sustainability Framework criteria

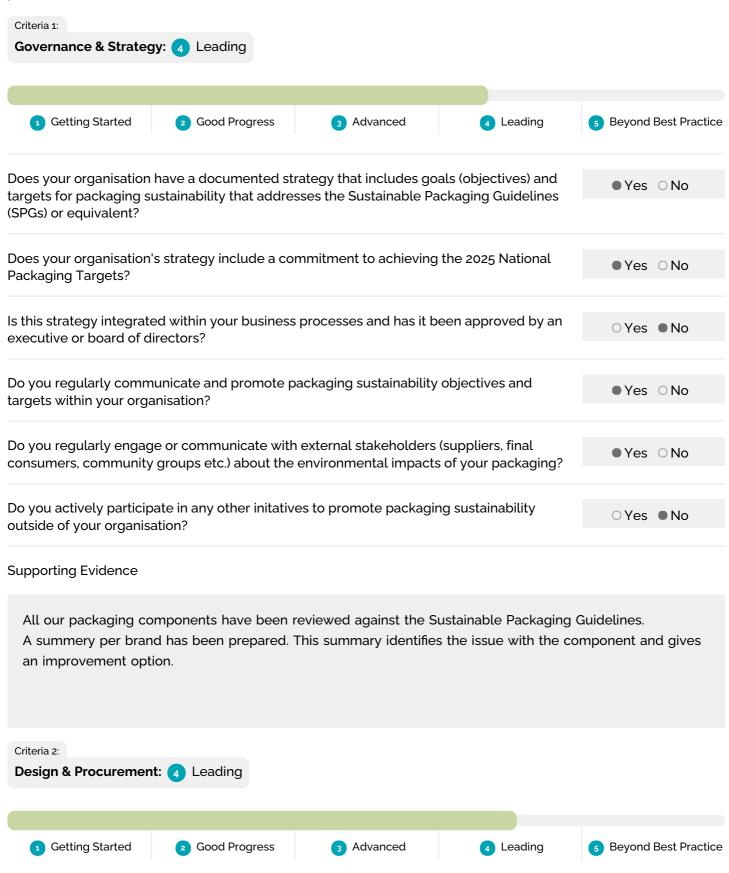

Criteria 1: Governance & Strategy	This criteria considers actions to integrate packaging sustainability into business strategies.
Criteria 2: Design & Procurement	This criteria considers actions taken to ensure that sustainability principles are considered in the design or procurement of both new and existing packaging through use of the Sustainable Packaging Guidelines (SPGs).
Criteria 3: Recycled Content	This criteria considers actions taken to increase or optimise the amount of recycled material used by your organisation.
Criteria 4: Recoverability	This criteria considers actions taken to improve the recovery of packaging at end-of-life and increase use of reusable packaging.
Criteria 5: Disposal Labelling	This criteria considers the extent to which packaging has been labelled to help consumers determine what to do with packaging at end-of-life.
Criteria 6: On-site Waste	This criteria considers progress in increasing the amount of on-site solid waste being diverted from landfill.
Criteria 7: Problematic Materials	This criteria considers the extent to which organisations are actively phasing out problematic and unnecessary single-use plastic packaging and preventing/reducing litter.

APCO Annual Report Criteria Performance & Responses

Provided below are your organisation's responses to the questions within the APCO Annual Report as well as a performance level for each criteria.

We have recycled content on our shippers. I have asked our cartonboard supplier about recycled content options and they said boards with recycled content are from overseas and are therefore more expensive and could have leadtime issues. Additional Information

O No additional information
Describe initiatives, processes or practices that you have implemented during your chosen reporting period that have improved packaging sustainability
We have relaunched our Healtheries supplement products in unpigmented HDPE from sugarcane bottles with optimised fill levels.
Describe any opportunities or constraints that affected performance within your chosen reporting period
Please use the space below to provide examples or case studies of exemplary packaging sustainability conducted by your organisation. The information provided in the boxes may be used directly in your public facing Annual Report and Action Plan. Submitted case studies might be used by APCO in the future to support other Members in achieving packaging sustainability.
